

## CLIENT NEEDS

Adept was approached by a client to find a solution to quality issues, lost productivity, delays to market and packaging performance due to inconsistency between global packaging groups.

## RESULTS

50 Harmonized Documents  
Created Across Multiple Company  
Categories

Standardized Processes to have  
Consistent Performance Criteria  
and Test Methods

## STEPS TAKEN BY ADEPT

- Created a team of packaging engineers and documentation specialists for this project:
  - Project Manager
  - Technical Copy Editor
  - CAD Specialist
  - Internal Subject Matter Experts
- Collected supporting information from engineers, packaging suppliers, procurement and other sources that required the documentation
- Developed test methods for 20+ packaging components, materials and product package categories
